DAY 2 WORKSHEET — PROMPT MASTERY — THE 10-PROMPT LI

A prompt is a brief, not a wish. Build two prompts per category with the 6-part framework (Role · Context · Task · Format · Constraints · Examples) and finish them with fill-in blanks.

NAME: _____ DATE: _____

01 THE FRAMEWORK, FROM MEMORY

No peeking. Name the six parts of a professional prompt and what each removes guesswork about.

Part 1:

Part 2:

Part 3:

Part 4:

Part 5:

Part 6:

02 CATEGORY — EMAIL

Replies, follow-ups, outreach, the awkward ones. Write both prompts in full, with [fill-in] blanks.

Prompt 1:

Prompt 2:

03 CATEGORY — RESEARCH

Summarize an article, competitor scan, explain a topic for a client. Write both prompts in full, with [fill-in] blanks.

Prompt 1:

Prompt 2:

04 CATEGORY — CONTENT

Captions, blog outlines, repurpose one post into five. Write both prompts in full, with [fill-in] blanks.

Prompt 1:

Prompt 2:

05 CATEGORY — ADMIN / OPS

Minutes from messy notes, SOP drafting, transcript to action items. Write both prompts in full, with [fill-in] blanks.

Prompt 1:

Prompt 2:

06 CATEGORY — REPORTING

The weekly client update, raw numbers to plain English. Write both prompts in full, with [fill-in] blanks.

Prompt 1:

Prompt 2:

07 QUALITY CHECK

- [ ] Every prompt names a Role and gives real Context (the two most-skipped parts).
- [ ] Every prompt asks for ONE task with a precise verb.
- [ ] Every prompt names its output Format.
- [ ] Every prompt has at least two [fill-in] blanks so it works for any client.
- [ ] I saved the finished library where I'll actually reuse it (doc or Project).

Which prompt will you use FIRST tomorrow, on what real task?

COACH'S NOTE — There's no single right prompt — only clear vs vague. Copying the demo and changing the specifics is a legitimate first step.
